

**Vibration Control  
Bumper and Anti-skid  
Leveling Feet**

These cylindrical vibration and noise dampening rubber feet/bumpers are offered in both male and female thread types. Zinc plated steel stud or socket. The socket depth is 3/8". Most items available in varying durometers from 30 to 70. (std. durometer is 45 +/- 5).

### Adhesive-Backed, Nail-In and Slip-On Sliders

IEC's *sliders* are designed to help move large furniture and equipment, protect carpets from snags, protect floors and decks from scratches and rust stains, reduce table wobble, dampen vibration, and keep furniture joints from loosening when being moved into position. Offered in round, square (-SQ), rectangle (-RE) and triangular (-TR) shapes.

Typical applications include patio furniture, bookcases, chests of drawers, entertainment centers, file cabinets, refrigerators, stoves, washing machines, sofas, beds, tables, chairs, desks, bar stools, appliances, exercise equipment, office partitions, etc.

When using *sliders* on wood floors, the floor should be clean and free from grit or scratching may occur. Sliders are not recommended on newly refinished wood floors for at least 30 days after refinishing.

The *solid peel and stick sliders* are essentially "nail-less" sliders. Nail-in sliders are designed for wooden legs and are ideal for more rugged applications.

#### NON-PADDED (SOLID) PEEL & STICK SLIDERS
